

Application

User administrator LiiV ¹(²)

eHälsomyndigheten

LiiV (Supplier information in the VARA register) is a product and item register which is administered by the Swedish eHealth Agency and which forms the basis of the information about medical products which is used during issue of prescriptions, prescription handling etc. The eHealth Agency is responsible for development, operation and maintenance of LiiV. However, each organisation which updates and maintains information in LiiV is responsible for its respective information. Read more on www.ehalsomyndigheten.se/tjanster

This form is used for application on user accounts with the role User administrator in LiiV. The application should be submitted by an authorised person at an authorised company. Authorised company refers to holders of approval for sale of medical products or their representatives in Sweden, pharmacies with registered stock preparations or other companies in charge of products/items.

The form should be e-mailed to:
servicedesk@ehalsomyndigheten.se

When the application has been sent, the eHealth Agency checks access of the specified company.

By means of this application, you confirm that you are authorised to represent the specified company as User administrator in LiiV and accordingly you have access to handle the specified company's products and items in LiiV and to provide access to others to do the same.

Information for those applying for user accounts in LiiV

About the eHealth Agency

The eHealth Agency aims to contribute to improved health care, care and the nation's health by pursuing development of a national e-health infrastructure. The activities focus on promoting public involvement and providing support for professionals and decision-makers.

What is your information used for?

The information stated on this form is used for creating a user account with the role User administrator in LiiV which enables administration of your company's information on medical products in the system. The user account also provides access to create user accounts for colleagues at the same company and for consultants who have been commissioned to administer the company's information in LiiV.

The information is also used by the eHealth Agency to find contact details in the event of questions on your company's information in LiiV.

Which personal data is registered in LiiV and for how long?

The eHealth Agency stores the information which is stated on this application as long as the account is being used. When the account is closed all personal data is deleted.

The information will be accessible for authorised personnel at the eHealth Agency and User administrators who are added to the same company covered by the application. If the user account is linked to a consultancy company, the information becomes available for all User administrators in LiiV.

Information registered in LiiV becomes public documents which can be disclosed in accordance with the principle of public access to official documents.

By sending this form with your personal details, you consent to this processing by the eHealth Agency.

Information for those provided access by the User administrator

As a User administrator in LiiV, you can add user accounts for colleagues at your company and assign access to consultants to administer your company's products. As a result of these user accounts being created, you must inform the person who is registered that his/her personal data is stored in the eHealth Agency's register.

Contact details

The eHealth Agency is in charge of personal data for the purposes of any processing of your personal data carried out by the eHealth Agency. If you would like more information on the register or have questions about the register extract, you can read more on www.ehalsomyndigheten.se or contact the eHealth Agency by post:
