

Planned service window in the e-prescription service the night of the 27 – 28 November

Saturday 27 November 2021 at 20.00

– no later than 11.00 on Sunday 28 November.

During this period, you will not be able to collect prescribed medicines and other items that you have received on prescription. This applies both if you visit a pharmacy or place an order via e-commerce. However, you may buy over-the-counter medicines and other products as usual.

Please feel free to plan your pharmacy matter so that you collect or order your prescribed medicines and other items, before or after the service window.

More information can be found at the Swedish eHealth Agency website: ehalsomyndigheten.se.
